

STRUCTURED CABLING SERVICES

NEW BUILD, EXPANSION, OR NETWORK REFRESH? GET THE CABLING RIGHT THE FIRST TIME.

Axsera installs clean, tested, and documented cabling infrastructure for Wi-Fi deployments, office and tenant fit-ups, network upgrades, and commercial environments.

Cabling installed by people who understand the network it has to support.

Q HOW AXSERA WORKS

- 1 Review needs**
Site, plans, constraints
- 2 Plan cable paths**
Routes, risers, closets
- 3 Install**
Cabling, terminations
- 4 Test, label**
Physical layer ready
- 5 Document**
Handoff to IT team
