INTRADO AXSERA

PUBLIC SAFETY FIELD SERVICES

CRITICAL COMMUNICATIONS NEED FIELD EXECUTION YOU CAN COUNT ON.

Axsera supports public safety technology providers and Public Safety Answering Point (PSAP) teams with field services across Canada and the United States, from site survey through installation, configuration, handoff, and training.

WHAT YOU GET

- Site survey and pre-deployment validation
- Installation and system configuration
- Coordination with PSAP and site teams
- Deployment handoff and readiness
- Administrator and call-taker training
- Flexible capacity, single to multi-site

WHEN TO BRING AXSERA IN

- Reliable field coverage across multiple locations
- Team can't staff every deployment locally
- Different sites, different execution models
- Survey, install, configuration, training support
- Project volume outpacing field capacity
- Consistency matters across every location

HOW AXSERA DELIVERS

1. **Assess the Site**
   Environment, requirements, access, conditions.
2. **Install & Configure**
   Field installation and configuration.
3. **Coordinate the Project**
   Customer, PSAP, site, and local teams.
4. **Handoff the Deployment**
   Field scope complete, system ready.
5. **Train the Team**
   Admins and call-takers trained.

UNE EXPÉRIENCE ÉPROUVÉE À GRANDE ÉCHELLE

Since **2007**: Public safety field delivery

Nearly **10,000 projects**: From single positions to large rollouts

North American reach: Most U.S. state and Canadian provinces

1 → nearly **15 field specialists**: Scaled with customer demand

WHY AXSERA

Proven Experience
Field deployments since 2007.

Field Capacity That Scales
Single position to multi-site rollouts.

Consistent Execution
One standard, every site and model.

Flexible Project Support
Extension of your team, or specific stages.

NEED RELIABLE FIELD EXECUTION ACROSS MULTIPLE LOCATIONS?

Axsera provides the resources to keep your projects moving.
